ABOUT US

- Located in Shunde District, Foshan City, Guangdong Province, where the furniture and household appliance industries cluster
- Established in 2002
- Specializes in aluminum alloy/zinc alloy diecasting, mold design, mold manufacturing, precision machining, surface treatment and finished product assembly
- Provides integrated solutions for our clients from different areas such as furniture, home products, household appliances and automobiles

OUR CAPACITY

Produce

2,000+ tons

of aluminum/zinc alloy parts annually

Over

10

countries/regions use our products

over

10,000 m²

factory area

WORLDWIDE BUSINESS

We develop and manufacture die-casting products for customers around Italy, Denmark, Germany, Japan, the United States, Australia, Southeast Asia and mainland China.

HISTORY

2002

Yaofeng Liang founded DAYE Diecasting and started producing household appliance accessories for Sanyei Corporation of Japan.

2006

Start-up of household appliance accessories production for Vanward, Midea and Glanz of China.

Start-up of furniture accessories production for B&B Italia.

Obtained ISO9001 certification.

2007

Started collaboration with Nine United Group of Denmark, producing furniture accessories for its sub-brand Hay.

2009

Collaboreted with Toshiba of Japan to develop furniture accessories such as chair foot, chair base, meeting table, etc.

2013

Energy consumption upgrade.

DAYE factory replaces diesel and carbon with electricity as the main energy consumption, taking an important step towards environmental protection.

Collaboreted with DEDON of Germany and Gloster of Switzerland.

2019

Developed series of finished products with furniture brands, completing a major leap from the production of accessories to the production of finished product.

Obtained FSC forest management certification.

2020

DAYE's annual output continues to increase.

Obtained the title of Class A taxpayer.

2021

Set up a furniture department and a new factory to manufacture finished furniture.

The factory area expands to over 10,000 square meters.

2024

Obtained GRS certificate.

Foot Pedal

WHAT DOES “SUSTAINABLE” MEAN IN DAYE?

Recycled Materials

- Recycled Content-certified aluminum
- Responsible packaging design

Cut CO₂ From Our Own Operations

- Clean energy
- Recycling
- Load Optimization
- GRS-certified

Sustainable Certified Wood

- FSC-certified wood

WHAT IS RECYCLED CONTENT CERTIFICATION?

This certification is for product manufacturers that use post-consumer or pre-consumer recycled content and want to make a verified claim.

Recycled Content Certification demonstrates commitment to making environmentally conscious products and conserving natural resources.

As requested, DAYE buys recycled aluminum alloy from our suppliers. DAYE is also working on having our own factory Recycled Content certified.

SCS Global Services does hereby certify that an independent assessment has been conducted on behalf of:

Guangdong Shunbo Aluminum Alloy Co., Ltd.

D6 Plot, Xiongxing Industrial Zone, Longtang Town, Qingcheng District, Qingyuan City, Guangdong, China

For the following product(s):

Metals:

Aluminum alloy ingot - ADC12/ALSi9Cu3

The product(s) meet(s) all of the necessary qualifications to be certified for the following claim(s):

SCS RECYCLED CONTENT CERTIFIED

Conforms to the SCS Recycled Content Standard V7-0 for a **100% with at least 61% Post- Consumer and Balance 39% Pre-Consumer Metal Content**. Material quantification and mass-balance calculations completed on a dry-weight basis.

Registration # SCS-RC-06246

Valid from: July 13, 2023 to July 12, 2024

100% RECYCLED CONTENT
61% POST-CONSUMER
39% PRE-CONSUMER

WHAT IS FSC?

FSC forest management certification confirms that the forest is being managed in a way that preserves biological diversity and benefits the lives of local people and workers, while ensuring it sustains economic viability.

FSC-certified forests are managed to strict environmental, social and economic standards.

DAYE want to make a sustainable choice and use FSC-certified wood at our own production units. We believe that by using FSC-certified wood, we help to ensure responsible forest now and in the future.

CERTIFICATE OF REGISTRATION

This is to certify that the management system of:

Foshan Shunde Daye Diecasting Industry Co.,Ltd

佛山市顺德区大野压铸实业有限公司

Block 1, No.9, JunMa Road, MaGang Industry Zone, RongGui Town, ShunDe District, Foshan, Guangdong, China
顺德区容桂镇马冈工业区骏马路9号之一, 佛山, 广东, 中国

complies with the requirements of:

Forest Stewardship Council®
Chain of Custody Standard

for the following scope of certification

Tracking of wood based material
Product types: Tables W12.3, Chairs and stools W12.6, Clothes hangers and pegs W16.4, Parts of furniture W12.12, Ornamental & decorative objects W18.8, Garden tables W13.1.1, Garden benches W13.1.2, Garden chairs and stools W13.1.3, Corrugated fibreboard P4.3, Cardboard packaging P5.1, Corrugated paper packaging P5.2, Adhesive labels P7.8, Books P8.1, Other pulp and paper products n.e.c. (Hang tag) P10.
Claim: FSC 100%, FSC Mix, FSC Recycled
System(s) used: Transfer
Certificate type: Single site
Standard(s) version: FSC-STD-40-004 V3-1, FSC-STD-50-001 V2-1

Certificate Number: FCOC42586
Initial Certification Date: 09 January 2020
Date of Certification Decision: 25 February 2024
Issuing Date: 06 March 2024
Issue number: 3
Certification Expiry Date: 08 January 2025
FSC® code: SAI-COC-004600

Products offered, shipped or sold by the certificate holder can only be considered covered by the scope of this certificate when the required FSC® Claim is clearly stated on invoices and shipping documents. © FSC-COC-SAI-04-EN-1.12 sep 22

WE USE PHOTOVOLTAIC SOLAR ENERGY

Photovoltaic solar energy is obtained by converting sunlight into electricity using a technology based on the photoelectric effect.

It is a type of renewable, inexhaustible and non-polluting energy that can be produced in installations ranging from small generators for self-consumption to large photovoltaic plants.

Starting from 2023, DAYE use green electricity generated by photovoltaic power and further reduce the emissions of greenhouse gases such as carbon dioxide, sulfur dioxide, and nitrogen oxide. In the future, we will keep tracking our carbon footprints and taking responsibility on environmental protection.

What is GRS (Global Recycled Standard)?

GRS provides a third-party certification system that verifies the use of recycled materials in products, and the adherence of strict quality control measures and certain labor/social criteria. This demonstrate our commitment to **sustainability and environmental responsibility, social responsibility and high quality.**

Consumers and brands often prefer products that are made with recycled materials and are certified by recognized standards like GRS, products produced by factories with GRS can open up new markets and customers, and enhance brand value.

Total Quality. Assured.

GOOD REASONS TO PARTNER WITH US

- Stable team specializing in diecasting and mold development for more than 20 years
- Efficient and effective production management system
 - Well-managed mold storage warehouse
 - Sufficient diecasting and processing equipments
 - Quality control based on an independent quality management system
- Sustainable product strategies
- Striving to maintain long-term relationship with our clients by promising the quality and services
- Work hand in hand with our clients to achieve mutual benefits and win-win results

We Can't Wait to Meet You!
